# Soft Snow Peeling

Shot Pulse Cold Ablation Technology + Micro Array Lens

BAEKOK·PEEL

Soft Snow Peeling is one of the best solution for Neo- collagenation and whitening based on technology of Er.YAG Laser system. L.Bium could provide the innovative solution with fractional and mild treatment and much less downtime.

## SYSTEM SPECIFICATIONS

Laser Medium	ER:YAG Crystal
Wavelength	2940nm
Operating Mode	2940nm
Beam Profile	JTS Top Mode
Pulse Energy	Max. 1000mJ (2940nm)
Pulse rate	1 , 2 , 5, single, 10hz
Cooling System	Closed cycle water to air heat exchanger
Pulse Width	300~350us (2940nm)
Spot size	0.5 ~ 7mm (Zoom handpiece) 0.5mm (Easy handpiece) MLA Fractional handpiece(option) Intravaginal handpiece(option)
Power Input	220 - 230VAC , 3KVA
Electrical Power	220V, Single phase, 60Hz
Dimensions	600mm × 850mm × 270mm [W*H*D]
Weight	65kg

# The innovative and Soft SNOW of Er:YAG Laser System

## BENEFITS WITH Soft Snow Peeling

1 SKIN Rejuvenation for aging skin, pore, wrinkle.

2 Gentle rejuvenation with Soft Snow Peeling.

3 Total solution of mild rejuvenation.

4 No downtime with the innovative and soft treatment

### Where?

- Skin Tone Up**  
Melasma, Pigmentation
- Pore Tightening**  
aging pore.
- Improvement of Wrinkle**  
Fine lines, Fine Wrinkles.
- Improvement of Pigmentation**  
Aging Spot, Freckle.
- Scar Removal**  
Scar from Acne, surgery , Stretch mark.
- Lips Toning**  
Whitening effect on lips with Soft Snow Peeling

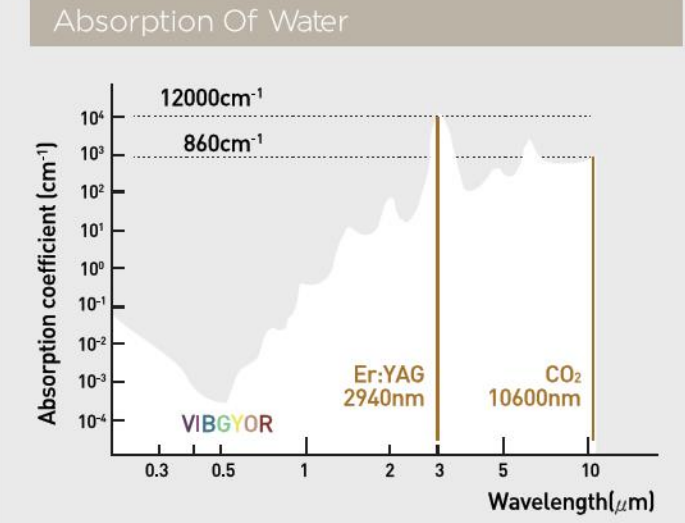

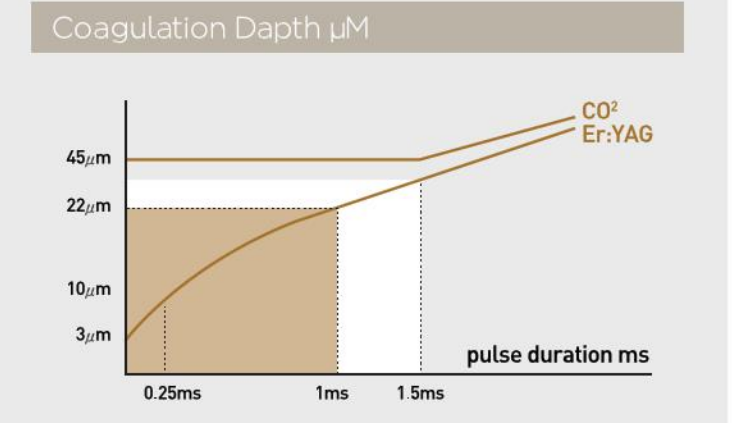

### What? Fine Fractional technology

Soft Snow Peeling ,which based on the innovative and fine fractional technology, would reach to Epidermis , Dermis layer and Pigment on skin and effectively treat melanin and pigments on skin with much less down time and safety.

- NO DOWNTIME**  
Normal life right after Soft Snow Peeling
- EFFECT**  
Whitening with fine fractional technology
- SAFETY**  
The Most mild treatment with the innovative Er. YAG Laser.
- SKILL**  
Neo-Collagenation with fine fractional treatment.

### What? Super Pulse

JTS developed Super Pulse as the core technology. Reach & Treat up to 3-50um with fine technology of L.Bium. To be the new standard for Whitening Peeling.

### Hand Piece

- ZOOM HANDPIECE (0.5MM - 7MM)**  
Up to 0.5 - 7mm for Spot Size
- EASY HANDPIECE**  
Fixed Spot Size with 0.5mm. Each treatment with defocusing.
- MLA FRACTIONAL HANDPIECE (11X11MM)**  
Fine Fractional H/P. 121 fine dot with spot size of 200um.
- The reusable intravaginal handpiece (Moving of 45, 90 degree)**

### Optical Penetration Depth
